Computer science student (UNAM)

▼ Objective

I am committed to effectively carrying out all of my job duties, leveraging my problem-solving abilities and strong work ethic to overcome any challenges that may emerge.

▼ Education

Faculty of Sciences Campus University City (UNAM), Mexico City, Coyoacan.

August 2023 – Today

- Right now, I'm lucky to be studying at the Faculty of Science, and I'm working on improving my teamwork, being responsible with my tasks, and staying committed to the activities I'm involved in.
- In my current academic program, I am studying several subjects, which include Advanced Algebra I & II, Discrete Structures, English III, Data Structures and Mathematics for Applied Sciences II. These subjects are an important part of my current education.
- In this first semester of the eight that make up this degree program, I have been very enthusiastic about studying the foundations of computer science. This enthusiasm has motivated me to persistently work hard on this academic journey.

National Preparatory High School Campus 6 "Antonio Caso" (UNAM), Mexico City, Coyoacan.

August 2020 – 2023

- Throughout my high school years, I cultivated even more essential values such as responsibility, punctuality, and respect.
- I focused my studies in the area of physical-mathematical sciences and engineering, which allowed me to cultivate specialized knowledge in technical and scientific fields.
- I accredited each of the subjects I took with excellent grades, obtaining an average of more than 9.0 out of 10.

▼ Skills and interests

- Ability to work in a team.
- Ability to manage and prioritize multiple tasks simultaneously.
- Mathematics, computer science and software.
- Read and expand my knowledge.
- Participate in sports activities and maintain an active lifestyle.
- Learn new languages and travel.
